

Thalassaemia Society of NSW

APPLICATION FOR SYRINGE DRIVER PUMP

The Thalassaemia Society of NSW is administered by a volunteer Committee elected at the Annual General Meeting who donate their time and concerted effort for the benefit of Thalassaemia patients in NSW. Fund raising events are organised and sponsorship is sought in order to raise funds for research into Thalassaemia and other related blood disorders. The Society also endeavours to assist people with blood disorders, and their families, by supplying essential equipment and offering support and information – for example, this Syringe Driver Pump would normally cost \$1,700.

If not a current member of the Thalassaemia Society of NSW, please attach membership application (and membership fee) with the pump application, and mail to:

The Thalassaemia Centre of NSW
Attention Coordinator
PO Box M120
